

“Experts in Bulk movement of Recyclables and Waste”

For all your walking floor haulage needs

Bulk Freight has led the way in walking floor haulage for almost 30 years. Formed in 1987, the company specialises in the bulk movement of waste and recyclables. With nationwide reach, our modern fleet of vehicles operates on a 24 hour a day, 7 days a week basis, meaning we can respond to our customer needs any time of the night or day.

We pride ourselves in offering a round the clock service, putting our customers' needs at the heart of our business and our offices are manned 24 hours a day.

Our Fleet

We operate a fleet of over 115 articulated vehicles, which are changed every five years. This ensures we operate a “green fleet” which meets the current exhaust emission regulations.

With such a comprehensive fleet of trailers, walking floors ranging from 120-130cu3 yds and tipper trailers built to transport Cat 3 food waste and aggregates, we can offer our customers a wide range of vehicles to meet just about every haulage requirement.

We are one of the largest waste haulage companies in the UK and are proud of our reputation as innovators and our 24 hour service.

Operating 7 days a week

We understand the importance of timing in the moving and disposal of recyclables, general and food waste, which is why at Bulk Freight we operate 24 hours a day, 7 days a week.

We look after a variety of clients, ranging from blue-chip companies through to utility companies, councils and family run businesses. We ensure a quality service by employing highly trained and motivated staff, from drivers right through to management. This quality service insists on replacing vehicles, making our fleet one of the most modern tipper fleets in the UK. All our clients have different delivery requirements, but one thing remains the same....

“The customer defines the delivery problem, we provide the solution.”
